Aspiring web developer/designer with 3 years of well-rounded experience. Skills include HTML, CSS, and PHP. Also experienced in JavaScript, SEO, advertising, multimedia production, and various Adobe programs.

Academic Experience

- Fabricated an online movie convenience store to showcase comprehensive and detailed code using only HTML and CSS. Demonstrated all necessary skills that a real company needed to acquire.
- Re-designed a local fictitious coffee shop with the goal of integrating frameworks, media queries, and responsiveness while implementing aesthetic appeal.
- Created an extensive website for a local company in Arlington in collaboration with another team member. The objective was to increase website traffic using SEO and other various techniques.
- Produced a fully working website for a small animal clinic using fundamental skills such as HTML and CSS. Executed a fully working login and appointment system using PHP and MySQL.

Education

University of Texas at Arlington, TX

Communication Technology (Major)

August 2012 – May 2016 (Projected)

Major GPA: 3.2 • Overall GPA: 3.2

Work Experience

Lowe's Home Improvement

Head Cashier / Supervisor | Mansfield, TX

August 2013 – December 2015

- Led a team of 20 plus cashiers while maintaining effective day-to-day operations.
- Assisted in customer's issues when manager on duty was not available or present.
- Revamped beverage checklist to ensure drinks were stocked in a timely manner.
- Performed daily upkeep while ensuring product was displayed, stocked, and labeled correctly.

Aviation Maintenance Administration

U.S. NAVY | Norfolk, VA

May 2006 - September 2009

- Managed all aeronautical records and logbooks with 99% passing inspection.
- Performed aircraft reliability charts using Microsoft Office to show week-to-week trends.
- Demonstrated resourcefulness when learning new programs in a fast-paced working environment.
- Exhibited constant communication between other aviation fields to ensure inspections were complete.
